## Our Membership

AZBio is a non-profit, 501(c)6 trade association. Together with our Members we drive the Arizona bioscience industry's growth at the state, national and international level.

AZBio supports Arizona's bioindustry statewide as an the unified voice of the bioscience industry in Arizona. AZBio strives to make Arizona a place where bioscience organizations can grow and succeed by working collaboratively with AZBio Members and Partners in the fields of:

- Agriculture
- Construction
- Community & Economic Development
- Distribution
- Education
- Energy
- Finance and Investment
- Government
- Health
- Information Technology
- Law
- Manufacturing
- Natural Resource Management
- Patient Advocacy & Support
- Professional and Workforce Development
- Research
- Testing
- Other professions involved in and supporting the biosciences

We also welcome individual students and K-12 educators with free memberships as a way to encourage Arizona's future bioscience leaders to get involved and stay involved throughout their careers.

AZBio is the exclusive state affiliate in Arizona of the Biotechnology Innovation Organization (BIO), the national association for biotechnology companies, a member of AdvaMed, the largest association representing medical devices, diagnostic products and medical information systems manufacturers, and a partner with the Pharmaceutical Research and Manufacturers of America (PhRMA) and with MDMA.

## Our Industry

In 2003, Arizona's bioindustry clusters came together to form AZBio. A lot has happened since 2003.

We have seen the rise of new bioscience research institutes, and a network of incubators that stretch from Flagstaff to Tucson. BD, Celgene, Medtronic, Merz, Roche and others acquired innovative life science companies that were born in Arizona, and stayed to become partners in our community and partners for growth.

We are making progress and measured our economic impact (excluding hospitals) in 2016 at \$23.16 Billion.

Life is better thanks to Arizona life science innovations in the fields of Health IT, Medical Devices, Diagnostics and Therapeutics. Arizona is leveraging its collaborative gene, with universities, companies, and institutions working together to target some of the world's biggest challenges in health and healthcare as well as agriculture and industrial bio-based innovations.

We have evolved from a state with isolated pockets of biotechnology players to a top *emerging* bioindustry sector.

The job is not finished...it's only just beginning.

To make the transition from a top emerging market to a top tier bioscience state, we must work together from the State Capitol to the lab and from the factory floor to the hospital ward. To take our place with global leaders means that we must lead in each phase, from discovery to development to delivery. We have laid a solid foundation to build on by building up our research infrastructure, attracting great talent, and strengthening our economic environment in a way that says "Arizona is open for bio-business."

## AZBio Members Make Life Better

Now is the time to leverage our investments and build on them. We must move forward faster and we will by continuing to expand our research infrastructure and talent base with a focus on commercializing great ideas and delivering them to the markets that benefit from them the most. The world needs what Arizonans can deliver. Let's do it....Together!

## AZBio is actively engaged and working for our Arizona Bioindustry

### Inside Arizona

- ◆ Advocating for the bioscience industry at the State Capital and within local communities.
- ◆ Sharing Arizona's Bioscience stories with the media and shining a spotlight on local achievements and advancements
- ◆ Partnering with Arizona's state and regional economic development teams and technology organizations.
- ◆ Connecting our community with Angels, Venture Funds, Banks and alternative funding sources.
- ◆ Sharing our story at statewide signature events and on AZBio.org and AZBio.TV.
- ◆ Supporting our future by partnering with Arizona educators from K-12 through our community college & university systems.

### Outside Arizona

- ◆ Advocating for the bioscience industry at the Congressional level and with our Federal Agencies.
- ◆ Sharing member achievements globally via the media, press releases, our IN THE LOOP newsletter, AZBio.org and AZBio.TV.
- ◆ Partnering with BIO, AdvaMed, MDMA and PhRMA to educate and inform on bioscience issues.
- ◆ Connecting with bioscience organizations regionally across the Rocky Mountain and Southwest to increase access to capital.
- ◆ Representing our community nationally at JPM, the BIO International Convention, The Medtech Conference and other industry conferences.
- ◆ Monitoring the national landscape for best practices that can work here too.

### AZBio will once again host Arizona Bioscience Week in 2020.

AZBW 2020 will include the **AZBio Awards**, the **White Hat Life Science and Investor Conference** and events hosted by statewide partners.

The **AZBio Special Supplement** in the Sept./Oct, issue of AzBusiness Magazine will share our message and your stories with 25,000 readers in print and over 122,000 online.

We need your help and financial support to make this a success and keep the momentum building as we prepare for AZBW 2020

- ◆ Join the planning committee.
- ◆ Provide financial support or purchase an ad in the Special Supplement.
- ◆ Reach out across your personal networks to engage and invite attendees.
- ◆ Save the date and join us in September 2020!

## Public Policy Initiatives

- ◆ Support the discovery, development, commercialization, delivery and availability of bioscience innovations that support the sustainability of our planet, our people, and our communities.
- ◆ Ensure that patients have access to the life-saving and life-changing innovations our industry creates.
- ◆ Increase access to capital for bioscience and med tech companies so they can grow and create more opportunity and jobs here in Arizona.
- ◆ Grow and attract great bioscience companies by providing a supportive tax and regulatory environment.
- ◆ Support K-12 Education programs that benefit our state as a whole and serve as a magnet to attract and retain a talented and productive workforce.
- ◆ Support Higher Education Funding and protect the vital academic research funding generated under the Technology Research Initiative Fund (TRIF).
- ◆ Develop new policies and programs that support University Technology Transfer Activity; encourage entrepreneurial activity; and foster a going investment base that will create a significant economic impact.
- ◆ Protect Economic Development Programs that support our overall Business Climate.
- ◆ Serve as a reliable and trusted resource to our Elected and Appointed Leaders on issues and opportunities that affect our bioscience industry, our communities, and our state.

### AZBio's Specific 2020 Policy Goals

- ◆ Educate the community and elected leaders at every level on the VALUE our industry delivers and the importance of ensuring that patients have access to life changing and life saving innovations.
- ◆ Working with elected leaders at all levels to provide the information they need to make good choices as we revise our healthcare policies nationally and at the state level.
- ◆ Ensure that Arizona's Angel Investment and R&D Tax Credits are uninterrupted and appropriately funded at levels that support industry growth.
- ◆ In 2018, SB 1390 extended the .6 cent transaction privilege tax for education created under Prop 301 through 2041. Essential Prop. 301 allocations including support for our community colleges and TRIF (the Technology and Research Initiative Fund) need to be reaffirmed in a new voter initiative so that they have voter protection.
- ◆ Support creative solutions to improve Arizona's educational systems at all levels including vehicles to provide internship opportunities for our future life science workforce and the educators who train them.

### **AZBio is the unified voice of Arizona's bioscience industry – at the national, statewide and local level.**

Advocacy is a key responsibility of any industry association. The AZBio Public Policy Initiatives provide a framework for the key concepts and initiatives that we, as AZBio, believe are critical to the growth of the bioscience industry in Arizona and nationally.

AZBio is represented at the Arizona State Capitol by the Dorn Policy Group, a leading professional public affairs firm serving Arizona and the Western United States. DPG team members provide strategic counsel and issue management. They also sign-in on behalf of AZBio on key measures affecting our industry as our contract lobbyist.

At the national level, AZBio often works in partnership with BIO, AdvaMed, MDMA, PhRMA and patient advocacy organizations.

## Developing Resources

Since its inception in 2003, AZBio has received generous support through a broad range of corporations and community partners.

Now in its second decade of operation, AZBio has aggressive goals to reach in delivering value to the bioindustry that is gaining momentum in our state.

To achieve these goals we must continue to garner community support in the form of grants, fee for service contracts, sponsorship, and active participation from our Members. The more resources AZBio earns and receives from committed partners, the more we can reinvest in our community through AZBio benefits and services.

### In 2019, AZBio reinvested your support in

- ◆ Arizona Bioscience Week which brought together over 1,000 community members and visitors.
- ◆ The 40-page AZBio Special Supplement in AzBusiness that reached over 25,000 in print.
- ◆ The 14th Annual AZBio Awards that was attended by over 600 leaders from Arizona and the U.S..
- ◆ Executive and administrative support so that we are accessible when YOU need us.
- ◆ Resources for advocacy at the state and national level and face to face interaction with the leaders who shape the policy that affects our industry.
- ◆ Matching funds for a multi-year initiative to address the need for early stage life science funding.
- ◆ Other smaller events designed to connect and engage our community.

## Creating Partnerships

At AZBio, we value our partners. You've told us how we can continue to improve. We are listening and acting on it.

One of the things we have learned from you is that you want to help us succeed and that you need a return on your investment of financial support, affiliate programs and/or in-kind services.

Our AZBio Support Levels are based on YOUR annual support of AZBio including your AZBio Membership Dues. We will work with your team to then craft the package of benefits that make sense for you and for your business so that your AZBio membership creates value.

### Craft your 2020 Support Benefit Package

- ◆ Weekly recognition of your support on AZBio IN THE LOOP.
- ◆ Branded Recognition at ALL AZBio Signature Events and Gatherings .

#### Important Tax and Business Information

As a 501c6, contributions to AZBio in the form of dues or sponsorship are deemed business expenses by the IRS and can not be claimed as charitable contributions.

In the case of DUES, 15% of your AZBio Membership Dues are NOT deductible as a business expense based on the AZBio's estimated lobbying expenses.

AZBio's partnership with OTEF, a 501c3 public charity, provides opportunities for charitable donations to programs designed to move our Arizona bioscience sector forward faster. Short descriptions of these opportunities are provided on the following page.

Credit for In-Kind Contributions: To qualify as an in-kind contribution that is officially recognized as support, AZBio records in-kind items in accordance with GAP. In-kind contributions must be documented in writing with the specific items at Fair Market Value and specifically apply to a defined need of the organization.

In-kind contributions apply to Support levels and are not applied to Membership Dues.

Payments: Check, Credit Card, EFT Please contact jkw@azbio.org for assistance with EFT.

AZBio's partnerships with OTEF (the Opportunity Through Entrepreneurship Foundation), 501c3 public charity, provides opportunities for charitable donations to programs designed to move our Arizona bioscience sector forward faster and make life better for patients and their families.

D3Bio is a collaboration between the Opportunity Through Entrepreneurship Foundation (OTEF), an Arizona 501c3 public charity, and AZBio. D3Bio operates as a division under OTEF.

The mission of D3Bio is to support life science innovation and life science innovators along the pathway from discovery to development to delivery.

**Current D3Bio Programs Include:**

- ◆ Underwriting free internship postings on the AZBio Career Center.
- ◆ Supporting the Student Discovery Zones where Arizona students from our high schools, community colleges and universities have the opportunity to showcase their work and exchange ideas with industry leaders. In 2019, we celebrated supporting our 900th student and are working to break 1,000 in 2020!
- ◆ Supporting administrative needs of the AZAdvances Capital Campaign.

**[www.D3Bio.org](http://www.D3Bio.org)**

AZAdvances™ is designed to provide a steady flow of funding for ARIZONA life science innovations and the ecosystem that supports our innovators. AZAdvances investments into our community will be directed to the projects and early stage life science companies with the greatest potential for lasting impact by the AZAdvances Trustees each year

With both an evergreen endowment and a current use fund, AZAdvances will have the ability to support direct expenditure grants to non-profit entities and direct investments into emerging life science firms across the state.

The AZAdvances capital campaign goals are:

- ◆ The AZAdvances Legacy Endowment™ goal is to reach \$200 million. At that level, the endowment can be expected to provide \$10 million or more in distributions annually.
- ◆ The AZAdvances Today Fund™ goal is \$50 million. This current use is designed to support projects and investments as the AZAdvances Legacy Endowment continues to build and to deploy community donations and distributions from the endowment over time.
